## WEEK OF PROBES, CONGRESS SLATE

Senate Tackles Railroads and Taxes, House to Dissect Bergdollar Case and Beer Bill.

Investigations—a popular indoor pastime with Senators and Representatives—will choke the Congressional program this week.

The Senate Finance Committee began today a thorough ventilation of tax revision proposals. The sales tax, advocated chiefly by Senator Reed Smoot of Utah, one of the committee's Republican members, was tackled first.

The Senate Interstate Commerce Committee will undertake a big job when it starts a sweeping investigation tomorrow of the country's railroad conditions. The railroad executives are scheduled to be heard first, and Senator Cummins of Iowa, the Republican chairman of the committee and joint author of the Esch-Cummins act, intends to inquire of them why the railroads required \$1,000,000,000 more last year for operation and maintenance than during any year of the preceding period of war-time Government control. The "labor group" are to testify the wage aspects of the railroad situation later.

Old John Barleycorn will be dragged before the House Judiciary Committee again when Congressman Volstead of Minnesota, author of the Volstead act which is intended to prohibit sale of beer to the sick.

The House Merchant Marine Committee will start hearings on the bill to allow American vessels to dispense liquor beyond the three-mile limit.

The Bergdollar case is to be aired all week by the special House committee created to determine the responsibility for the escape of Grover C. Bergdollar. Mrs. Emma Bergdollar, the slacker's mother, and former Secretary of War Baker are among the "star" witnesses scheduled to testify.

## BLAIR O. K. DELAY HALTS 'DRY' PLANS

Enforcement Officials Anxious for Confirmation—Hundreds After Kramer's Job.

Prospect of early confirmation by the Senate of the nomination of David H. Blair, as Commissioner of International Revenue, gave Treasury officials hope today that new re-organization plans for the Prohibition Enforcement Bureau will be worked out without much further delay.

The entire "dry" law organization in its present form is merely a skeleton of the unit constructed by the former Administration. Most of the posts of higher responsibility throughout the country are vacant. Secretary Mellon's lists today bore the names of hundreds of applicants for jobs as prohibition law enforcers. There are a half dozen candidates for the post of Prohibition Commissioner. The incumbent, John F. Kramer, probably will tender his resignation within a few days and ask to be relieved.

As soon as the Revenue Commissioner is sworn in, Secretary Mellon arranged to clear up appointment problems, bearing upon prohibition work. Keen rivalry has been manifested in contests among Republicans for places as State Directors.

## GORKY ASKS WORLD TO SAVE RUSSIAN PEASANTS

COPENHAGEN, May 9.—Maxim Gorky, the Russian writer, is reported in a Helsingfors dispatch to have issued through the Finnish newspapers an appeal "to the whole world" to come to the rescue of the representatives of Russia's intelligentsia. The message quotes him as saying that about 5,000 savants in Soviet Russia are on the verge of dying from hunger.

## STELLAR DRAMA CLUB TO OBSERVE BIRTHDAY

Amateur Theatians Will Present 'Threads of Destiny' Tonight.

The Stellar Dramatic Club will celebrate its tenth anniversary by presenting "Threads of Destiny" at Gonzaga Auditorium tonight.

The play, written by Lindsey Barber and directed by Miss Sue H. Murray, has a pleasing plot of love and war, as in the days of '61 and '65.

The leading role is played by Miss Francis Scheele. Other members of the cast are: Miss Agnes M. Icardi, Martin J. Cook, Miss Mary M. Mannix, Miss Marian L. Donnelly, Miss C. Regina Sullivan, John Paul Jones, Miss Frances B. Schiele, J. Robert Shaw, Miss Thelma M. Sweeney, Miss Margaret F. D'Amico, James F. Kelly, Miss Louise H. Nichols, Miss Dorothy C. Donovan, Miss Eloise M. Butler, Leonard S. Chamberlain, Miss Alice E. Donnelly, Miss Lillian Riccardi, Miss Elma Donovan, Edward M. O'Brien, John J. Donovan, Miss Margaret C. Mannix, James E. Cook, Miss Helen F. Sweeney, John R. McIntyre.

## THIN PEOPLE NEED BITRO-PHOSPHATE

All that most weak, nervous, thin, mentally-depressed people need is ten grains of pure organic phosphate with each meal for a few weeks. That's what nerve specialists in London, Paris and New York are prescribing with wonderful results. It is natural food for nerve and brain cells and is known to such reliable pharmacists as Peoples Drug Stores as Bitro-Phosphate. Because of its power to help create healthy flesh and strengthen weak nerves, much of it is being sold to people who are lacking in vitality.

CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired.

ARE YOU KEEPING UP WITH THE TIMES?

## WHAT ARE YOUR IDEAS ABOUT IT?

Reorganizing the Civil Service in order to secure the highest attainable efficiency is one of the biggest, liveliest problems now before Congress. Many ideas are advanced which differ widely. Why not shape up your ideas and send them in? THE FEDERAL EMPLOYEE OFFERS \$1,500 CASH IN PRIZES For details, read

## We Pay

The cost of a ten-day test. Simply send the coupon.

This will 20 times bring you the delightful effects. It will show you whiter, cleaner, safer teeth. Then you can easily judge what they mean to you.

A book we send explains the unique results.

the alkalinity of the saliva, to neutralize the acids which cause tooth decay. All these results come from every application. Thus mouth acids and the starch which forms them are effectively combated. Old-time tooth pastes, based on soap and chalk, had just the opposite effect.

## Millions now show the results

Pepsodent is now widely adopted. As a result millions of teeth now glisten as they never did before. You see them everywhere. Those teeth are protected in these new, effective ways.

To countless women it has brought an added beauty. For men who smoke it is removing film-held tobacco stains. It is saving children's teeth. Dentists advise its daily use from the time the first tooth appears.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Feel the other good effects.

This test will be a revelation. It will show you what clean teeth mean. Then decide if you always want the teeth in your home kept like the teeth you see. Cut out the coupon now.

## The War on Film

That dingy film on teeth

Dental science nowadays is conducting a war on film. It means a new dental era. The object is whiter teeth, cleaner teeth and safer.

Millions of people have already benefited. And leading dentists everywhere are urging this new way on others.

This is to offer a pleasant test. To bring you the results for awhile. Then to let you decide if you want them every day.

### Film mars your looks

Film is that viscous coat you feel, ever-present, ever-forming. It clings to teeth, gets between the teeth and stays.

This film absorbs stains, so it clouds the teeth's beauty. It often forms the basis of thin, dingy coats. And coated teeth don't glisten.

So beauty alone demands its daily removal. Those who leave it do not realize how attractive teeth can be.

### The great tooth wrecker

But film does more. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed by millions in it. And they, with tartar, are the chief cause of pyorrhea.

Thus film causes most tooth trouble. Despite the tooth brush, those troubles have been constantly increasing, until very few escape. The ordinary dentifrice does not effectively combat film, so much has been left intact.

That is the situation which dental research has in late years sought to remedy.

### Two efficient methods

Two efficient methods have been found. Able authorities have proved them. A great number of dentists have watched the results for years.

Now these methods are combined in a tooth paste called Pepsodent, for daily use at home. Its effects are quick and delightful. A week's use is usually convincing.

### Other essential helps

Modern research has revealed other needs. Ordinary diet is often rich in starch and deficient in fruit acids. A tooth paste should twice daily do what fruit acids do. It should stimulate Nature's teeth-protecting agents in the mouth.

Pepsodent does that. It multiplies the salivary flow. It multiplies the starch digestant in the saliva, to digest starch deposits that cling. It multiplies
